**PRESIDENT AND
SENATORS DISCUSS
MEXICAN PROBLEM**Conference Arranged For 2:30
O'clock This Afternoon at
the White House.**MRS. WILSON IS CONSULTED**Wife of Executive and Dr. Grayson,

sult for the Meeting; Cabinet to
Discuss Subject at Special Session.By Associated Press.
WASHINGTON, Dec. 5.—President
Wilson will use Senators Fall, Re-
publican, New Mexico and Hitchcock,
Democrat, Nebraska, at 2:30 P. M.
today to discuss the Mexican situa-
tion.Senator Fall announced that im-
mediately after the conference he
would make public the evidence on
which he based his charges in the
Senate that the Mexican ambassadors
and consuls in the United States were
circulating "Red" propaganda.Senators Fall and Hitchcock were
named a committee yesterday by the
Senate foreign relations committee to
confer with the President to seek his
views on the resolution of Senator
Fall regarding that the President
"sever diplomatic relations with the
Mexican government." The Hitchcock
substitute proposing Congress assure
the President of its support should he
decide to break with Mexico also will
be presented. Senator Hitchcock com-
municated with Secretary Tamm
last night regarding the confer-
ence and said it was not necessary
that the President see the Senators
immediately but the President decided
to have the conference today.The Senators will go to the White
House after the President's cabinet
has held a special meeting at which
the Mexican situation will be dis-
cussed. The meeting was called by
Secretary Lansing who spent nearly
two hours before the foreign rela-
tions committee yesterday discussing
the Fall and Hitchcock resolutions
and the Mexican question.The request of Senator Hitchcock
that the President see the Senators
was referred to Mrs. Wilson, and
approval of the conference was given by
Secretary Grayson, the President's
personal physician.**POSTAL REPORT**Burlington Claims Surplus of \$2,425,561
for the Current Year.By Associated Press.
WASHINGTON, Dec. 5.—A surplus
of \$2,425,561 in postoffice operations
for the fiscal year, 1919, was announ-
ced in the annual report of Postmaster
General Burleson. The figures are
subject to some adjustment which
would increase the surplus. Mr. Bur-
leson said, adding that this was the
sixth time in the seven years of the
present postoffice administration that
revenues had exceeded expenditures.An aggregate surplus of more than
\$355,000,000 as compared to an aggre-
gate deficit of more than \$59,000,000
for the preceding seven years period
is shown.The cause of the change is im-
mediately apparent, the report says
of this comparison. "Whereas the
revenues under this administration
increased \$737,597,818, or at the rate
of 50.88 per cent, compared with the
seven-year period prior to the time
it assumed office, the expenditures
increased only \$448,755,795, or at the
rate of 42.49 per cent. The differ-
ence between the increase in expendi-
tures, and the increase in revenues,
less losses, equals the amount of the
net change in favor of the public
treasury."Much of the credit is leveled at the
department's financial policy. Mr.
Burleson said "due to lack of com-
plete and accurate information."
The fact, as presented, he added,
tells a story of achievement. He said
that none are given. The administra-
tion stands squarely on its record."**PAY INCREASED**Census Enumerators Will Get Four
Cents a Week.By Associated Press.
WASHINGTON, Dec. 5.—Increase of
the rates of pay for enumerators of
the fourth decennial census to
\$20 cents for each person enumerated
was announced by Dr. Sam L. Rogers.
Approximately 87,000 enumerators are
employed.Payment during the last census was
at the rate of two to three cents a
week and 20 cents a farm. The in-
crease was necessary to attract prop-
erly qualified men and women, Mr.
Rogers said.Publisher Connellman.

DONORA RAID FOLLOWING
DYNAMITING OF HOUSE**

State Police Pluck Steel Strikers' Home Is Blown Up.

PITTSBURGH, Dec. 5.—Seventy-six
men, said to be striking steel work-
ers, were arrested at Donora, Pa., today
when troopers of the state police and
county officers raided steel strike
headquarters. The raid followed the
explosion of dynamite under the resi-
dence of Felix Burkhardt, a workman.
Just before daybreak the people of
Donora were aroused by the explosion
which damaged Burkhardt's house but
injured none of the family. The police
after searching the neighborhood went
to Lithuanian hall, the headquarters
of the striking steel workers, and ar-
rested every person in the place. The
prisoners were taken to the police sta-
tion where a big crowd of foreigners
collected. Fearing a demonstration,
the authorities called in additional
state constables and the crowd soon
dispersed. No charge had been made
against the prisoners up to noon. Only
four of the men arrested, it was said,
were American citizens.Burkhardt is employed by the
American Steel & Wire company as a
carpenter. National strike headquar-
ters here was notified of the arrests
and immediately ordered the union
organizer at Charleston to proceed to

A. M., the Time of Coke
Magnate's Funeral.The chimes of the Trinity Lutheran
church were rung this morning by R.
O. Chabough at the hour of the funeral
of Henry Clay Frick held from the
Frick residence, "Clayton," Pittsburg.
The chimes were donated by Mr.
Frick to the local church at a cost of
\$10,000.PITTSBURGH, Dec. 5.—The funeral
of Henry Clay Frick took place here
today simple services being held at
the family residence.
The services took place at noon,
none but members of the family and a
few close friends being present. The
Rev. Dr. Edward J. Van Eften, rector
of Calvary Protestant Episcopal
church, officiated and Mrs. Christine
Miller Clemson, wife of one of Mr.
Frick's business associates, sang a
number of Mr. Frick's favorite hymns.

CONFRONTED WITH
FUEL SHORTAGE**Sligo Has Week's Supply; Dunbar
Concerns Likely to Be Seriously
Handicapped.Local industries are becoming
seriously handicapped by coal short-
age and while none has yet been com-
pelled to suspend, what the next few
days will bring for this a problem.
The Sligo Iron & Steel company has
a supply sufficient for next week.A call for help went out to local
coal men today from the Pennsylvania
Wire Glass company of Dunbar, which
is reduced to the stage of partial
operations and facing complete sus-
pension unless it can get fuel. If
supply was available it was said to-
day the company was arranging for
truck transportation.The Dunbar Furnace company is
still in operation but knows not what
will be the situation a few days hence.
The company, under government
permit, is using the supply from its
own mines. This is a few hundred feet
from the plant, comes under govern-
ment control the minute it is moved
onto the company's railroad.PASSENGER SERVICE GETS
BIG CUT, DECEMBER 10.NEW YORK, Dec. 5.—Passenger
service on railroads on the Eastern
Region extending as far west as St.
Louis and Chicago was reduced to a
war basis today by drastic orders ef-
fective December 10 issued by Region-
al Director Hardin.In some respects the order was
even more sweeping than those issued
during the war. For the first time
since the famous 20th Century Limited
was put in operation between Chicago
and New York by the New York
Central about 20 years ago, it was cut
from the schedule to save fuel.
The orders affect virtually 150 rail-
roads included, in the region. No
special trains are to be run for busi-
ness, or pleasure travel and no second
class service of regular trains will be
operated except in cases of coach
travel between cities of dense popu-
lation.**FOUR MORE WELLS**All Afters the Speechless Sand
Which Has Produced "Gushers."Four more gas wells "came in" in
the McKeesport-Stake Hollow field
yesterday. At three of them the gas
is coming from the sands above the
speechless well the fourth well is in
the speechless sand. It is owned by
the Foster-Brendle interests and is
estimated by David Foster that gas is
coming from this latest strike at a
rate between 2,000,000 and 5,000,000
feet a day. It is located on the Lorion
property several hundred feet west of
Walnut street.Drillers at the Matthews, Drive and
Lamp wells were surprised when
strong flows were struck in the sands
above speechless. The Drive and Mat-
thews wells are on Long Run road and
the Lamp well is in Snake Hollow.
These are separated by about a mile
of territory.**STARVES TO DEATH**Lower Colored Man Found Dead in
Shack on South Alley.Starvation and exposure resulted in
the death of Valley Peyton, colored, 66
years old, Thursday afternoon in a
shack in South alley, where he made
his home. The body was found late
yesterday afternoon and was taken in
charge by the J. L. Stader company.
Peyton dealt in junk and had resided
here some time. He was born in
Virginia, the name of his parents
being unknown. He resided alone. The
interment will be made in the county
cemetery.Coroner S. H. Baum was notified of
Peyton's sudden death, and pre-
sented it due to starvation and ex-
posure.**Peace Delegates Leaving.**PARIS, Dec. 5.—The members of

VENISON SUPPER BEST
EVER SERVED HERE**That's the View of Those Who Are
Guests of Alford and Com-
pagnons Thursday Night."I've eaten venison many times but
that is the best it has been my lot to
taste" was the verdict of one of those
who enjoyed the hospitality of George
Cochran at a venison supper given
last evening to 60 to 70 members of
Connellsville Lodge of Elks, and some
others at the Elks Home as a climax
to a hunt in the wilds of Maine par-
ticipated in by Mr. Cochran, C. A.
Wagner, S. R. Cox, John Wieshart and
Charles H. Bales of this city and
Joseph Kelly of Saxtonville, Mass.
Others who knew whereof they were
speaking agreed with the statement
and those who did not know pro-
nounced the meat delicious. It was a
jolly occasion, and lacked only in the
absence of Mr. Kelly, who joined the
party at Boston and with whom the
local almsrods became fast friends.The supper over stories of the hunt,
were told by Messrs. Cox, Cochran,
Wagner, Bales and Wagner, and
down to the slaying of one of the
animals by Mr. Cochran with a knife,
with J. H. Lollar of the Smith House
supplementing the whole by some
"confidential information." The trip,
said Mr. Cox, cemented friendships
that will last for all time. So well did
all enjoy it that next year another is
planned, though farther to the north,
in the Canadian wilds where the
diminishing mouse roams. W. D. Mc-
Cormac presided as toastmaster and
when a rising vote of thanks to Mr.
Cochran and his associates was pro-
posed it was given with a cheer.
"Cy" Kennel convulsed the diners
with humorous remarks.Kiefer's orchestra played and
Lester Crawford sang during the
feast. Afterward a quartet from the
"Passing Parade" at the Arcade
theater gave a number of selections.
Camera man Charles H. Balesy took
motion pictures of the dinner, using
flashes for service in the Maine
woods but left behind in the rush.
Ralph Ward took a still picture.The five hunters speak highly of
their companion from Massachusetts,
and regretted that he was not with
them at the supper. They met him at
the railroad station in Boston when
Mr. Wagner asked him where he was
going he replied, "Somewhere in
Maine." So they looked up together
and it turned out, to be that Kelly,
an Irishman, was the life of the camp-
ing party. Although an expert mark-
smen, he did not get a deer.

The menu for the supper reads thus:

Oyster Cocktail
Celery Pickles Olives
Roast Venison Cherry Wine Sauce
Mashed Potatoes Sweet Potatoes
Lamb Fries Peas on Trembles
Coffee English Walnuts**JENKINS FREED

Let "Danderine" save and glorify your hair

In a few moments you can transform your plain, dull, flat hair. You can have it abundant, soft, gleamy and full of life. Easy on your feet — extra thickness where the wear comes

TIMBERING a working place, boring, blasting, "topping up" cars for hours at a stretch—the hardest work you do is made twice as hard if your rubber shoes go bad.

It's cold, wet feet if they leak—blisters and sores if they don't fit.

Made on a good comfortable last, absolutely water-tight—that's the new U. S. Bootee, made especially for miners. Get a pair of them before you start work tomorrow.

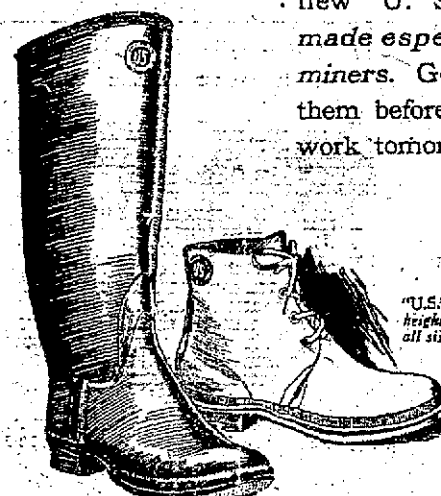

Every pair is backed up with extra thicknesses of pure rubber and good strong fabric where the wear is hardest.

Every pair is made with plenty of room at the toes and shaped so as not to rub up and down at the heel.

Go to the store and see for yourself the U. S. Bootee for miners—the high with six eyelets, the low with four. Ask for U. S. Rubber footwear—it means solid wear and long service for your money.

FOR FARMERS, TOO

Built especially to stand up under hard use in mines—the hardest possible kind of wear—the U. S. Bootee and the U. S. Boot are now being adopted by farmers everywhere who know the value of sturdy, comfortable rubber footwear.

FRIDAY EVENING, DEC. 5, 1919.

FAILURE OF SUGAR CONTROL.

Measured by what it has accom-

plished in the direction of controlling

the distribution and sale of sugar

the consuming public will be disturbed

by the announcement of Attorney Gen-

eral Palmer that this Sugar Equaliza-

tion Board will be dissolved at the end

of the year.

While this threatened abandonment

of the plan has all the appearance of

an attempt to throw upon Congress

the responsibility of continued con-

trol of sugar which the Administra-

tion would willingly escape, it will be

understood by the public to be, pos-

sibly, a recognition of the complete

failure of the undertaking. At

no time has the operation of the sys-

tem resulted in anything approaching

an equalization of supply. An in-

crease of almost 100 per cent over the

pre-war price and a country-wide in-

ability to procure sugar when most

needed, seem to have been about all

that has been accomplished. Some

communities have had ample supplies

at all times and others but a short

distance away have been chronically

short. Often in the same town some

dealers have been able to procure

sugar whenever and in such quantities

as needed. Their competitors have at

the same time been much less favored.

Meantime sugar consumers have been

obliged to exercise the most rigid

economy in their consumption of

sugar; others have used it with pro-

digality, while confectionery and soft

drink manufacturers have been per-

mitted to increase their consumption

practically without limit.

All sorts of propaganda as to short-

age has been circulated industriously

while from time to time government

reports of tremendous production by

the refineries have been issued. The

result has been that the public has at

no time been in possession of depend-

able information as to the real situa-

tion. Meanwhile the government board

has gone blundering along, without

achieving anything more concrete

than compelling the consuming pub-

lic to pay the price of another experi-

ment in paternalism in government,

just as the consumer has always been

obliged to pay the freight.

The promise of the Department of

justice that it will prosecute sugar

speculators after the equalization

board has been dissolved may afford a

glimpse of comfort that the price of this

necessity may be kept somewhere

within reasonable bounds, but the net

results of the campaigns against price

manipulators in other lines have thus

far been so barren of results that the

public is not likely to endorse over

the most recent assurance of ruth-

lessness in pursuit of sugar profiteers.

PASSING OF THE FAMILY WASH

TUL.

With the increasing difficulty that is

being experienced in procuring ser-

vices of washed women in private homes

very large interest is certain to be

taken in the inauguration of a country-

wide movement for the emancipation

of housewives from the family wash

tub. The more extensive use of elec-

tric washing and wringing machines

is doing much to relieve the task of

the most burdensome features of the

housewife's time required to handle the

family washing, but so effort is being

made in another direction which is de-

signed to still more completely elimi-

nate "wash day" as a home affliction.

The Laundrymen's National As-

sociation, consisting of the managing

officials of local public laundries

throughout the country, is now en-

gaged in a drive to convert the house-

wife to the use of the steam laundry.

A campaign of personal visits, in-

terviewing, and the use of the

newspaper, together with the use of

forms of publicity, is being conducted

with a view to converting the pre-

judices housewives have formed

against the laundry. Information as

to the remarkable progress made in

laundry processes and machinery is

being given with a view to acquainting

housewives with the advantages of

getting away from the old time home

laundry methods.

Doubtless this campaign will do

much to assist housewives in meeting

what has become a very perplexing

problem in most homes. It may not

solve it wholly, inasmuch as the pub-

lic laundries are not equipped to

handle certain garments, and some

of them lack that system in plant ad-

ministration which insures the return

of all pieces sent to the laundry.

These are defects which are not im-

possible to overcome but which re-

minded they will prey at that general

use of public laundries which would

result in relieving housewives of one

of the most annoying problems of the

domestic situation. Yet a frequent

help, inasmuch as the electric washer

will serve to supplement the public

laundry.

A very considerable measure

of relief is thus being provided

overburdened housewives, and with

still further effort on the part of

laundry managers and the makers of

electric washers and appliances the

family wash-tub of antiquated type

will eventually be relegated to the

relic class.

Through the fuel restriction mea-

sures, the Administration is doing the

best it can to remind us that it is still

keeping us in the war.

Careful search among the schedule

of commodities by the Department

of Justice failed to reveal anything in-

dicator that addition is to be taken to

reduce the high cost of the dissemina-

tion of information, and that things

by the News-Freedom organization in

Fayette.

The open season is on in the contest

between hog owners to determine who

has the biggest pig.

The Methodist brethren of Ohio

have been doing their share in

supplying the local membership of

this denomination.

Will it be surprising if the Washing-

ton authorities who are scouting "pig-

gers" in every coal pile, make the

farming discovery that the people

with empty coal bins have conspired

with the operators and miners to bring

about such a condition?

In paying Uncle Sam \$297,064,250.73

in internal revenue taxes last year,

the people of the 33rd collection dis-

trict were reminded that other things

than food, clothing and shoes have

had something to do with the high cost

of living.

Don't forget all of the 12 shopping

days remaining between today and

Christmas if you begin tomorrow, but

you will need the whole 256 following

to get rid of your regrets if you fail

to take advantage of buying early.

Remember that no Christmas pur-

chase is complete if it does not include

a supply of Red Cross Christmas seals.

Elderly People Have A Daily Health Problem

Stomach muscles and digestive organs slow to act as age advances

MOST people find the years slipping by without realizing it, until suddenly confronted with the fact that they can no longer digest everything they would like to eat. It then becomes their daily task to avoid what they know to be chronic constipation.

When exercise and light diet fail it will be necessary to resort to artificial means. Strong physics and cathartics, however, are not advisable for elderly people. They act too powerfully and a feeling of weakness results.

What is needed is a laxative containing effective but mild properties. This is best found in Dr. Caldwell's Syrup Pepsin which is a combination of simple laxative herbs with pepsin. It acts gently and without griping, and need a few days will train the digestive organs to do their work naturally again without other aid.

Dr. Caldwell's Syrup Pepsin has been on the market since 1892 and was the private formula of Dr. W. B. Caldwell, who is himself past 80 years of age and still active in his profession. It can be bought at any drug store for 50c and \$1 a bottle, the latter containing enough to last

even a large family many months. It is a trustworthy preparation.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 311 Washington St., Monticello, Illinois.

At the Theatres

THE PARAMOUNT.

"THE BLUE BANDANA"—With William Desmond in the leading role, is being shown today. This latest of the genial Bill's pictures is a romantic drama of that part of the west in which hard riding, stage robberies and murder mysteries are still more or less rampant.

Desmond plays the role of Jerry Jerome a young New York money-wizard, who, when he discovers that his overworked brain motor is hitting on only one cylinder, goes west for his health. There he is plunged into a mass of exciting adventures that make Nick Carter's lurid romances seem anticlimactic in comparison.

Coincident with Jerry's arrival at Jim Yancy's farm in Wyoming, a series of mysterious stage hold-ups is inaugurated and in attempting to solve these and thwart the robbers Jerry frames a fake hold-up, which leads to his being suspected of the crime. Jerry's reason for meddling in the affair is Yancy's daughter, Ruth, who not only captivates his heart but puts him through a course of domestic sports by turning him into a light-running domestic and he-maid of all work at the farm house. When Jerry discovers that Yancy is an ex-convict who has been going straight, but who is blackmailed into assisting in the hold-ups, he turns tables on the bandit, who is shooting, capturing over Yancy's head, and secures a confession from him exonerating Yancy.

THE SOISSON.

"THE TREMBLING HOUR"—With Helen Eddy in the principal role, concerns a man who returned from the front suffering from shell-shock. His nerves are badly unstrung and the slightest noise upsets him to the point of violence.

How he was accused of a murder and how he proved his innocence forms the theme of the photodrama. Supporting the stars are Gertrude Astor, Henry Barrow, Willis Marks, Edda Shipman, Anna May Walthall and Carl Stockdale.

Sure Relief

Are You Sure?

You insist upon Certified milk for your Kiddies because Certified means Pasteurized.

If pasteurizing milk is absolutely vital, why not be sure that whatever spread you use for bread is also Pasteurized.

DIXIE Margarine is absolutely Pasteurized* in every ingredient. We KNOW. Because we Pasteurize it ourselves.

Every gallon of milk and cream that goes into the making of Dixie Margarine—and we use thousands of gallons daily—is re-clarified and re-pasteurized* by us before it ever goes to our churns. And we do the same with every ingredient.

So that DIXIE is absolutely wholesome, absolutely pure.

If you insist on Pasteurization for your milk, insist on it also for your spread for bread.

DIXIE is also the Margarine with the full butter flavor.

Buy it and try it and see for yourself.

*Ask your Family Physician or find out from your Health Commissioner how absolutely vital to health Pasteurization is. Don't take any neighbor's word for this. It's too important. Ask an expert.

Columbia Grafonola
And All the Records You Want.

We have such unbounded faith in the superiority of the Columbia that we handle it exclusively. In every line there must be one "best"—and in talking machines, it is the Columbia. It is not "best" because we sell it, but we sell it because it IS "BEST."

THERE IS A SIZE AND A STYLE TO PLEASE EVERYONE—HERE AT THE RAPPORT-FEATHERMAN CO.

Make your Christmas selection now. Arrange the payments to suit your convenience.

Regardless of whether you purchase a small \$25.00, \$100.00 or \$250.00 "Columbia" you get the same pure sweet tone—clear, resonant and full, which after all is the most important feature when purchasing any talking machine.

Last year many were disappointed in not getting the machine that they wanted and were compelled to loan their smaller models until those they ordered arrived. Insure against a repetition by ordering your machine now. It will be delivered at once or we will hold it any day you say to deliver it.

All Models Now! Don't Wait!

Don't let the shortage catch you later. There isn't enough good talking machine to go around this season. The manufacturers have not been able to even half way meet the demand. Do your shopping early this Christmas.

Use Your Liberty Bonds to Secure Your Talking Machine
An Investment in Real Home Happiness!

The One Advantage That the Columbia Grafonola Has Over All.

THE NEW NON-SET AUTOMATIC STOP

The new Columbia Automatic Stop requires no setting or any attention whatever when playing a record. Start the motor in the regular way by moving the start lever. The Automatic device will stop the motor a few revolutions of the record after the music ceases, no matter what size record it may be. This does not in any way interfere with moving the start and top lever by hand. No adjustment is necessary when playing different size records; as the lever that stops the motor is connected with the tone arm. The pressure of the tone arm while a record is playing holds back the Automatic Stop infallibly.

HEN A BAROMETER

J. L. Keffer's Pullet Roosts in Tree When Fair Weather is Promised.

Special to The Courier.

DUNBAR, Dec. 5.—J. L. Keffer possesses an exceptionally accurate barometer in the shape of a fine Rhode Island Red pullet. This fine bird, taught to go into a tree to roost by a game hen, had been making her nightly domicile in a cherry tree since midsummer, but it was not until a month ago that her owner discovered her value as a weather prognosticator.

The weather man predicted storms but the pullet was noticed on her usual perch on the tree. It did not storm. The next evening the weatherman guessed fair, but the pullet was not on the tree but had gone into a small house nearby. It began storming before bed-time that night and it kept up all night.

After that time Mr. Keffer noticed this pullet every evening and without exception it came on the tree if it did not storm, but if she was found in the coop it stormed. It was with regret, when the recent cold weather came that her owner put her into the regular poultry house, for he realized he was robbing himself of valuable weather knowledge. But rather than expose the young hen to rough weather conditions he decided to do as the weatherman does—guess at it.

MANY ATTEND CLINIC

Over 100 Medical Men and Surgeons See Dr. Crile in Action.

Over 100 physicians and surgeons from Fayette, Westmoreland, Somerset and Greene counties, attended the diagnostic clinic conducted at the Uniontown hospital yesterday by Dr. George W. Crile, world famous surgeon, of Cleveland, O. The clinic was held in one of the hospital wards and eight cases, four of gynecology and four of rare abdominal conditions, were diagnosed. Owing to the nature of the clinic, the discussions were purely technical, but they emphasized the wonderful progress which has been made in the medical profession along these lines. Immediately after the clinic Dr. Crile was compelled to leave for Cleveland. Dr. T. B. Echarad and Dr. H. J. Coll, who were among the physicians who attended a luncheon given yesterday at noon at the Willow hotel, Uniontown, by Dr. A. C. Hugan in honor of the noted surgeon.

Great Exercise to Keep Liver and Bowels Active,
But if You Won't, Then take "Cascarets"

There is nothing like bending exercise, taking long walks, or chopping wood to keep the liver and bowels active, but most folks take their exercise in an easy chair. Such folks need Cascarets, else they suffer from sick headache, sour, acid stomach, indigestion, colds and are miserable. But

don't stay bilious or constipated. Feel splendid always by taking Cascarets occasionally. They act without griping or inconvenience. They never sicken you like Calomel, Salts, Oil or nasty, harsh Pills. They cost so little too—Cascarets work while you sleep. —Adv.

Mr. J. W. Jones, 215 North 10th St., Harrisburg, Pa., writes: "I have been suffering from a chronic catarrh of the bladder for many years. It was a terrible affliction, and I had tried many remedies without success. I was advised to try Seneca's Catarrh Remedy, and I did so. I am now feeling like a new man, and I can now do anything with no ill results. It is a simple, harmless preparation that removes the catarrh from the internal tract and cures practically all stomach, liver and intestinal ailments, including appendicitis. The Store of the New Christmas Spirit

Serving and Saving for Useful Giving—
Practical Gifts for Intimate Friends—CLOTHES

Cozy Slippers

—will delight any one, not only at Christmas time, but every evening, when tired toes released from the cramping in-leather shoes, relax themselves, wriggle luxuriously in their welcome freedom and start a glow of comfort which prepares for a pleasant evening and a restful night.

MEN'S SLIPPERS, \$2.00 TO \$4.00.

WOMEN'S SLIPPERS, \$2.00 TO \$3.00.

Winter Gloves

—“Cold hands and a warm heart” is an old saw to which no one objects in mid-summer, but when the temperature tumbles to zero minus, frosty fingers are no indication of warm affections. Good, warm gloves are a real comfort enjoyed by big and little. Some are fur lined for sports and driving.

MEN'S GLOVES, \$2.00 TO \$4.00.

WOMEN'S GLOVES, \$2.25 TO \$5.00.

Blanket Bathrobes

—After a strenuous day in the office—when evening brings relaxation, mental and physical, to tired business men and women—there's nothing quite so inviting as the welcome of a warm, comfy bathrobe, which beckons to its sheltering folds with a promise of luxurious ease.

MEN'S ROBES, \$6.50 TO \$18.00.

WOMEN'S ROBES, \$5.35 TO \$15.75.

Silk Hosiery

—may be of silk when it is given as Christmas presents, but it will be almost as welcome if woolen, especially if it is for wear during blustery days. Sport hose for men and women in Heather wool are more and more popular, but silk hose is sure to please whoever finds it tucked among their gifts.

MEN'S HOSE, 69c TO \$4.00.

WOMEN'S HOSE, \$1.25 TO \$4.00.

Pajamas

—Since the days when Billie Burke in pajamas captivated America, those garments have been no longer sacred to mankind, but many a woman has discovered and calmly appropriated pajama comfort. Incidentally they can be bought now not only in the splendid silks the men wear, but whisper it softly—in crepe de chine and ruffled! Then they are called “Marguerites.”

STEEL MAKING WILL BE REDUCED ONE-HALF BY THE COAL STRIKE

Iron and Steel Strike Played Out by the Coal Strike. The steel industry is facing a severe test as the coal strike continues. The steel makers are being forced to use a different method of making steel, which will result in a 50% reduction in production.

can Metal Market and Daily Iron & Steel Report will review the steel and iron trade tomorrow as follows: Up to date steel producing and steel finishing have been affected scarcely at all by the coal strike, but another fortnight of coal production at no greater rate than that of last week will probably see something like half the steel making and finishing capacity rendered idle. It is seen that the mills in general were well stocked with coal. A few that had poor stocks

very easily. When coal-mining is resumed the influence of coal scarcity will disappear instantly, whereas the iron and steel strike leaves behind it inefficiency and indifference on the part of workmen that will be long in correction. The pre-strike rate of steel production may not be attained before February or March.

In its rigidly maintained policy of holding March 21st steel prices from any advances the United States Steel Corporation does not have anything

like full support by the independent producers. Some are openly out for as high prices as can be secured while others exhibit the form rather than the substance of offering their products at regular prices. In a few lines buyers are willing to pay premium prices for deliveries to the middle of next year but in the great majority of cases the premium prices bid are only for prompt deliveries and for such deliveries the premiums are quite liberal.

Pig iron is entirely out loose from steel, and has been advancing at the rate of \$1 to \$2 a week. Furnaces profess an unwillingness to sell for extended deliveries even at present advanced prices but it is not certain that buyers would be willing to contract freely. There is no hint that Lake Superior iron ore will advance, and the 14 per cent wage advance made in the Connelville district increases the cost of making coke less than has lately been predicted.
